

**Cleaning  
Sorbothane®**

EFFECTIVE 9/15/15

Sorbothane® is a polyether-based polyurethane. As such it demonstrates typical chemical resistance of polyether-based polyurethanes.

Recommended cleaning techniques are:

1. Warm water and mild soap. Rinse thoroughly and air dry.  
Do not soak.
2. Wipe lightly with alcohol. Air dry. Do not soak.

\*Avoid the use of solvents.

Consult engineering department with any questions.
